

CSL

Fold wrapping machine

Fold wrapping machine for pre-packed articles into cardboard labels

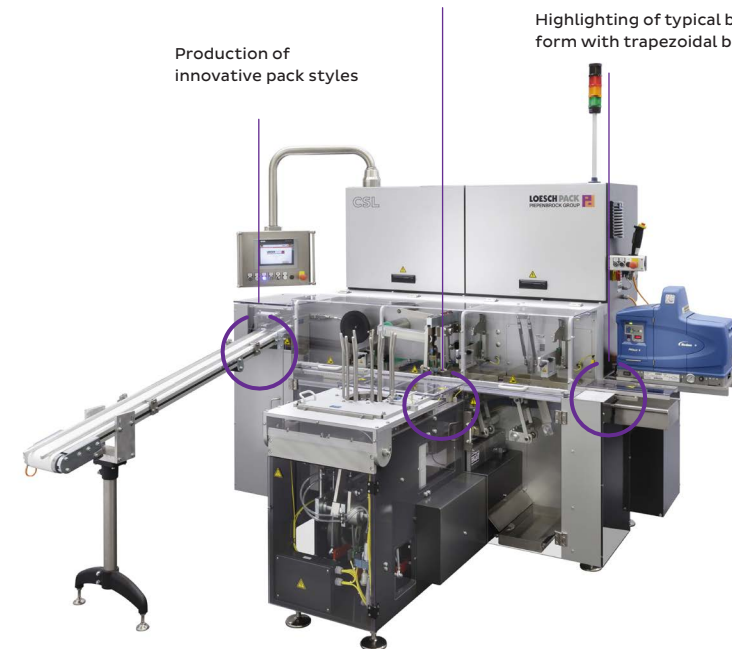

The flexible fold wrapping machine for higher speeds of up to 170 packages per minute. The proven CSL is used for wrapping of pre-packed chocolate tablets, bars and small bars and other confectionery products of rectangular shape.

Economic cartoning due to use of flat blanks

Production of innovative pack styles

Highlighting of typical bar form with trapezoidal boxes

Performance and efficiency

- > Excellent product protection through an outstanding wrapping quality
- > Cam-controlled with central lubrication and low-maintenance
- > Machine design adapted to the specific requirements of the confectionery and food industry
- > Wide size range and quick format changeovers
- > Excellent wrapping quality
- > Inexpensive wrapping materials due to use of flat blanks
- > Accessibility to all areas for simple and rapid cleaning and maintenance
- > Top hygienic and ergonomic standard
- > Very high efficiency
- > Space-saving due to compact design
- > High availability
